

DNA Profiling of Arrestees

Our experienced team will help you develop a feasible and executable plan to collect and test samples from arrestees. We accomplish this by using lessons learned, developing strategies, optimizing processes, and implementing change.

Our Services Include:

- ◆ Needs Assessments
- ◆ AFIS Integration
- ◆ Criminal History Integration
- ◆ Automated Data Transfer
- ◆ Work flow Analyses and Process Mapping
- ◆ Communication Plans
- ◆ Resource Evaluation
- ◆ Concept of Operations
- ◆ Budgeting
- ◆ Risk Assessment and Management
- ◆ Performance Measurement & Evaluations
- ◆ Change Management

Sample collections from arrestees are complex. A functional and successfully executed collection plan will save your laboratory time and money.

BENEFITS:

- **Develop a reasonable budget**
- **Identify needed resources**
- **Implement tools to save time and money**
- **Eliminate duplicate collections**
- **Provide a neutral forum for communication between agencies**
- **Maximize hits**

Sozer, Niezgoda and Associates will help you eliminate avoidable issues and streamline arrestee sample collection and testing
